

WATERSHED GUARDIAN

LIFETIME ACHIEVEMENT AWARD, 2026

The Ontario Headwaters Institute acknowledges the extraordinary contributions to the ecological, social, and economic security of the Credit and Humber watersheds of

Ian Sinclair

With a graduate degree in applied environmental studies and certificates in horticulture, landscaping, and conflict resolution, Ian Sinclair has both operated a landscaping consultancy and played an outsized role in protecting watershed security in the Credit and Humber watersheds, serving a broad range of community organizations and elected positions over the last thirty years.

Key accomplishments have included extensive involvement as a town and regional councillor, working on key committees, and being a member of the Toronto and Region Conservation Authority, the Credit Valley Conservation Foundation, and the Niagara Escarpment Commission. Other tireless efforts involved the Caledon ratepayers' association, the Alton Grange Association and, now in supposed retirement, the Coalition West Credit River, Caledon's aggregate working group, and as president of Gravel Watch Ontario.

Through it all, Ian has demonstrated a command of environmental issues and quiet diplomacy, sharing his wisdom with all who ask. We are pleased to provide this certificate and the accompanying award in recognition of Ian's invaluable work as a Watershed Guardian.
